

Sensor

Plug-in Microwave Sensor for Batten and Oyster

SAA

FEATURES

- Microwave sensor is designed to be compatible with the new LWBR2110 range and the new LWOPTC30-E
- Standby light operating at 0-50% brightness (Adjustable), full brightness when movement detected
- High performance with range up to 15m and 360 degrees
- Sensor operating interval is 2sec - 10mins (Adjustable)
- Adjustable light starts < 20lux

SPECIFICATIONS

Order Code	MS02
Model Number	LWMS02
Input Voltage	DC5V-12V
HF System	5.8Ghz CW Radar ISM band
Time Delay	2sec-10mins
Detection Distance	Up to 15m
Detection Angle	360°

DIMENSIONS
